Vitamins - Supplements

A female doctor with her hair in a ponytail, wearing a white lab coat and a stethoscope, is looking down at a tablet computer she is holding. She is standing in a pharmacy or clinic, with shelves of medicine visible in the background. The image is partially obscured by a dark blue vertical bar on the left side.

# ABOUT US

Vita Bio UK Ltd is a British company committed to creating an innovative portfolio of private label vitamins, dietary supplements for children, men & women.

Our newly branded UK Products will be exclusively sourced within our audited network of suppliers and transported only via validated logistics companies, ensuring product quality specifications are maintained throughout the supply chainend-to-end.

# VITAMIN D3 1,000 IU

**Boost your immunity**  
Maximum strength supplement

180 capsules (6 months supply)  
Easy to swallow  
Once daily

## VITAMIN D3 FACTS:

Contributes to healthy, strong bones and helps control the amount of calcium in the blood.

Prevents many diseases and helps with immunity and cardiac function.

A range of diseases that associated with low levels of D3 such as multiple sclerosis, osteoporosis, cardiovascular & mental health.

Although most of this evidence has been demonstrated in adults, these guidelines will focus on vitamin D & its role in bone health in school-age children.

# VITAMIN D3 2,000 IU

## Improve your mood

Maximum strength supplement

180 capsules (6 months supply)

Easy to swallow

Once daily

## VITAMIN D3 FACTS:

Adding vitamin D3 rich foods into your diet can help make sure you are getting the recommended levels every day.

As an employer, it is important your employees are getting their source of D3. If sun exposure is not an option you may need to source supplements, just be careful of the dosage amount.

If sun exposure is available make sure you are encouraging regular breaks outdoors, especially in the winter months.

Encourage regular exercise as this assists with the production of D3.

# VITAMIN D3 4,000 IU

**Strengthen your bones & muscles**

Maximum strength supplement

180 capsules (6 months supply)

Easy to swallow  
Once daily

## VITAMIN D3 FACTS:

Vitamin D3 deficiency is common in older adults, this can be due to having osteoporosis or limited exposure to sunlight.

The skin becomes less able to synthesize D3 as people get older.

D3 seems to be involved in muscle function. Some research has suggested it can help reduce falls, other research hasn't confirmed this finding. It is sensible to avoid this by taking supplements.

Taking 4,000 IU of D3 supplements every day lowers the risk of harm in older people.
